Come see these highly acclaimed films on our large screen

The Great Debaters

3/22

Two-time Academy Award winner Denzel Washington directs and stars with Academy Award winner Forest Whitaker (Last King of Scotland) in this important and deeply inspiring page from the not-so-distant past. Inspired by a true story, Washington shines as a brilliant but politically radical debate team coach who uses the power of words to transform a group of underdog African American college students into an historical powerhouse that took on the Harvard elite.

The Hurt Locker

3/29

Directed by Kathryn Bigelow, this honest action film focuses on an Explosive Ordnance Disposal team, the troops whose more or less daily job is to disarm the homemade bombs that have accounted for most U.S. casualties in Iraq. This film has received nine Oscar nominations including best picture and best director.

Citizen Kane

4/5

Orson Welles' 1941 masterpiece, made when he was only 26, still unfurls like a dream and carries the viewer along the mysterious currents of time and memory to reach a mature (if ambiguous) conclusion: people are the sum of their contradictions, and can't be known easily. Welles plays newspaper magnate Charles Foster Kane, taken from his mother as a boy and made the ward of a rich industrialist. The result is that every well-meaning or tyrannical or self-destructive move he makes for the rest of his life appears in some way to be a reaction to that deeply wounding event.

Amelia

4/12

Two-time Academy Award winner Hilary Swank delivers an unforgettable performance as Amelia Earhart, the legendary American aviatrix who boldly flew into the annals of history. Richard Gere co-stars as her charismatic business partner and adoring husband George Putnam. Bound by ambition and love, their enduring marriage could not be broken by Amelia's determination to fly -- nor her passionate affair with Gene Vidal (Ewan McGregor).

Where the Wild Things Are

4/19

Through his handcrafted ode to the trials of childhood, acclaimed director Spike Jonze puts his own unique imprint on Maurice Sendak's enduring classic. The film stars, Max Records, Catherine Keener and Mark Ruffalo and features the voices of James Gandolfini, Paul Dano, Lauren Ambrose, and Forest Whitaker.

Everybody's Fine

4/26

Robert DeNiro leads an acclaimed all-star cast including Drew Barrymore, Kate Beckinsale and Sam Rockwell. When Frank Goode's (DeNiro) grown children cancel a family reunion, the recent widower sets off on a cross-country journey to reconnect with each of them. Expecting to share in the joys of their happy, successful lives, his surprise visits reveal a picture that's far from perfect.
