I am aware that my child is requesting access to a Minecraft server provided by the LION (Libraries Online) Consortium. I understand that my child will be able to interact with other library users remotely through this online game. I understand that my child may be banned from using said server for poor conduct which includes using inappropriate language, harassing other players, using client-side apps, spamming, and/or other behavior deemed inappropriate by administrators. I am granting permission to allow my child's Minecraft screen name to be given access to the LION Minecraft server.

Additional Restrictions:

Children in grades K-5 will automatically be placed in the Architect group. This group has access to creative worlds only (ability to craft, mine, and fight computer-generated enemies); no chat; no PvP (Player vs. Player fighting).

Children in grades 6-12 will automatically be placed in the Guardian group. This group has access to PvP, creative worlds, and global chat channel. Parents can optionally give permission for their younger children to join this group.

Additionally, I give permission to allow my grade K-5 child's Minecraft screen name to be given access to the Guardian group for older children on the LION Minecraft server. I understand that they will have access to PvP, which may make the game more challenging for my child. I also understand that my child's screen name may be returned to the Architect group at the discretion of administrators if their presence in the Guardian group causes difficulty.
